Hanover, NH (Open to relocate) | +1 (603)-266-7985 | srihari.karthik.th@dartmouth.edu | [Portfolio](#)

SUMMARY

Technical Product Consultant with product expertise in GenAI, cloud, and analytics. Delivered 40% GenAI cost savings and \$500K cloud savings, with 5× platform growth and 65% higher engagement. Skilled in user research, cloud strategy, and agile delivery.

EDUCATION

Dartmouth College - Thayer School of Engineering & Tuck School of Business

Sep 2025 - Nov 2026

Master of Engineering Management

Coursework: Statistics, Marketing, Product Management, Negotiation, Data Analytics, Strategy, Technology Assessment

SRM Institute of Science and Technology

Jun 2018 - May 2022

Computer Science Engineering (GPA: 3.98/4)

Coursework: Data Structures & Algorithms, Database & Project Management, Artificial Intelligence, Machine Learning

PROFFESIONAL EXPERIENCE

Deloitte

Technical Product Consultant

Bangalore India · Feb 2025 - Jun 2025

- **Led structured user interviews across 15+ organization-wide GenAI use cases** and synthesized key insights into actionable PRDs that aligned engineering and business teams to drive actionable product decisions
- **Optimized GenAI delivery costs by ~40%** by engineering a T-shirt sizing framework that evaluated LLM complexity, data readiness, and infrastructure setup effort to inform product roadmaps
- **Reduced platform spend 20–25% (\$500K annually)** via optimized cloud strategy across 100+ GenAI architectures, plus \$50K additional savings from ML-first solutions aligned to product OKRs

Product Analyst

Bangalore India · Dec 2023 - Feb 2025

- Owned Deloitte's cyber-hackathon platform (Hackazon), **expanding reach 5× across 15+ national events** & global cyber forums
- **Drove a 65% boost in user engagement and challenge production** by redesigning the GTM strategy and end-to-end product flow using usage metrics, pain-point analysis, and A/B testing
- Delivered USP-driven market research strategies **projecting \$100K+ in revenue**, presenting insights to guide product decisions
- Led a developer team delivering 100+ Python challenges, working with cross-functional international teams and managing Azure DevOps product backlogs for a platform supporting 700+ events and 30k+ users

Data Analyst

Bangalore India · Feb 2023 - Dec 2023

- Managed a 5+ team to improve contract classification models leading 10 agile sprints **raising prediction accuracy from 63 to 93%**
- Automated contract keyword extraction using NLP (TF-IDF, BERT), **cutting** document processing **time from 6 hours to 2.5 hours**

Associate

Bangalore India · Nov 2022 - Feb 2023

- **Reduced query runtime by 60%** by optimizing SQL pipelines for an enterprise-scale CLM platform managing 100k+ contracts
- Translated client requirements into clear legal and engineering needs, enabling faster alignment and reducing turnaround time

Intern

Bangalore India · Jan 2022 - Apr 2022

- Developed Real Time KPI Dashboards in Power BI integrating IAM and PAM data, accelerating executive decision-making by 35%

PROJECTS AND LEADERSHIP

AI Driven Grid Inspection Optimization

Sep 2025 - Dec 2025

National Grid

Hanover NH

- Conducted a full technology assessment of National Grid's manual grid-inspection workflow by comparing GenAI vs. traditional CV models and identified an AI-driven drone solution that **reduced inspection cost from \$20 to \$7 per pole (estimated 65% savings)**
- Evaluated 5+ AI vendors and multiple cloud-storage options using a weighted decision matrix and recommended a vendor that was 20% cheaper along with Azure Hot Storage, **projecting a \$230K in savings across 4 years**

Gen AI Chatbot for Healthcare Analytics

Nov 2024 - Jun 2025

AWS

Bangalore India

- Built a B2B GenAI healthcare analytics product in AWS that **cut manual analysis by 95%** and evolved a single-agent workflow into a modular multi-agent system, **reducing hallucinations by 40%** and securing \$5K in AWS funding

SKILLS AND INTERESTS

- **Product Skills:** Product Roadmapping, GTM Strategy, User Interviews & Research, MVP Development, Agile, Iteration, PRDs
- **Technical Skills:** Python, SQL, AWS (Lambda, Bedrock, API Gateway), ETL, Power BI, ML Models, LangChain, NLP, Excel
- **Certifications:** AWS Cloud Practitioner, Google Data Analytics
- **Achievements:** 3x Recipient of Spot Award at Deloitte, Youngest member of the legal data team promoted to consultant
